Magnetoresistive Sensor ICs
2SS52M Series

DESCRIPTION
The 2SS52M Series Digital Magnetoresistive Sensors are omnipolar, solid-state sensors with a built-in magnetoresistive bridge integrated on silicon and encapsulated in a plastic package. The integrated circuit also includes a band-gap regulator and a digital output in response to very low magnetic fields.

These sensor ICs may be operated with either a North or a South magnetic pole applied in parallel to the sensor IC. The polarity does not need to be identified, simplifying installation in single pole applications and doubling the resolution in rotating magnet applications.

These small and highly sensitive omnipolar devices have become a popular building block for flow metering, motor RPM and cylinder position sensing.

They are available in five package styles:
- **2SS52M**: U-pack, 3-pin, in-line sensor IC with straight leads supplied in bulk packaging (1000 units per bag)
- **SS552MT**: SOT-89B surface-mount sensor IC supplied on tape and reel which allows for compact design with automated component placement (1000 units per tape and reel)
- **2SS52M-S**: U-pack, 3-pin in-line, surface-mount sensor IC supplied in bulk packaging (1000 units per bag)
- **2SS52M-T2**: U-pack, 3-pin, in-line sensor IC with formed leads supplied in ammo pack tape-in-box (5000 units per box)
- **2SS52M-T3**: U-pack, 3-pin, in-line sensor IC with straight leads supplied in ammo pack tape-in-box (5000 units per box)

FEATURES
- High sensitivity: 25 Gauss maximum operate point allows for extended sensing distance or a smaller magnet
- 3.8 Vdc to 30 Vdc supply voltage range
- Omnipolar sensing: Activates with either North or South pole
- Temperature range: -40 °C to 150 °C [-40 °F to 302 °F]
- Digital current-sinking output
- RoHs compliant, meets Directive 2002/95/EC

POTENTIAL APPLICATIONS
Industrial
- High frequency flow sensing in HVAC, water, fuel meters, and gas utility meters
- Anti-tamper detection in water, electric, and gas utility meters
- Liquid level detection
- Motor RPM sensing
- In-cylinder position sensing

Medical
- RPM sensing in exercise and rehabilitation equipment
- Magnetic interrupt in exercise and rehabilitation equipment
- Absence/presence detection in infusion pumps
- Position sensing of medication dispensing cabinet drawers
- Incline position sensing in hospital beds

White goods
- Lid, door and drawer position detection
- Fluid flow detection
- Liquid level detection

PORTFOLIO
The 2SS52M Series is part of Honeywell's family of Digital Magnetoresistive Sensor ICs:
- SM351LT, SM353LT
- SM351RT, SM353RT, SM451R, SM453R

**NOTICE**

Absolute maximum ratings are the extreme limits the device will withstand without damage to the device. Electrical and mechanical characteristics are not guaranteed as maximum limits (above recommended operating conditions) are approached, nor will the device necessarily operate at absolute maximum ratings.

Warranty/Remedy
Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective.

The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application. Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

Find out more
Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office.
